BRIEF WIRINGS.

Demand Time.
DAYTON, Iowa, July 31.—The savings banks of Dayton, Rock Island and Moline, give notice that hereafter they will demand sixty days notice before paying out funds.

Cleveland's Corner.
New York, July 31.—The World says that Mr. Cleveland will control all the leading committees of the house. If Bland is retained as chairman of the coinage committee the majority of the members will be against him.

Disturb and Wheat.
CHICAGO, July 31.—There was a panic in the wheat pits Saturday and prices went all to pieces. Cash wheat was finally quoted at 57½. There was no visible cause, nor was any reason advanced, for the upheaval excepting distrust in the financial situation.

Demoralized.
New York, July 31.—The market is unfavorably affected by the action of the savings banks in establishing the sixty-day rule. Prices have materially declined and show no disposition to rebound. The past week was the most demoralized in the history of the New York stock market.

Looking for Irregularities.
CINCINNATI, Ohio, July 31.—The creditors of Foster & Co., and Charles Foster have held a largely attended secret meeting and raised a fund to employ an expert to make examination of the books of the bank. This will be done in order to see whether there were any irregularities in recent transfers of real estate.

A Senator Resigns.
CHEVYCHE, Wyo., July 31.—Governor Osborne does not deny or confirm the rumor that Senator Beckwith has resigned. It is definitely known, however, that the senator has resigned and that his successor is appointed. The senator will be A. L. New, recently appointed internal revenue collector for Colorado and Wyoming.

Stopped at State Line.
KANSAS CITY, July 31.—A law has been found on the statute books prohibiting railroads to bring paupers into the state. All trains will, therefore, be stopped at the state line and if any paupers are found they will be prevented from entering the state. This decision is aimed at the hundreds of men now being sent east from Denver.

Actual Cost.
ASPEN, Colo., July 31.—The committee appointed to gather data as to the cost of producing silver in Aspen have finished their work, but will not make public the exact figures at present. It is definitely known, however, that every ounce of silver mined here during the past ten years has cost over \$1.00 per ounce. The data has been sent to Washington.

Alfalfa Will Be Scarce.
DENVER, July 31.—W. N. Batchelder, superintendent of irrigation, says there will be no second crop of alfalfa this year, with a few exceptions. Usually three crops are cut, but this season farmers have had to give up the second crop and be content with the first and third. It is also stated that not more than one-half or two-thirds of the coming crop of alfalfa will be secured and consequently hay will rise in price.

Siam Succumbs.
BANGKOK, July 31.—The Siamese government has accepted the full terms of the French ultimatum, and it is now expected that the war cloud in the east will pass away.
London.—A telegram from Bangkok indicates that the Siamese government has accepted the full terms of the ultimatum, and it is now expected that the war cloud in the east will pass away.

SILVER CLANS.
Gathering in Great Numbers for Tomorrow's Convention at Chicago.

CHICAGO, July 31.—In most of the hotel parlors and lobbies the subject of conversation was silver. The vanguard of delegates has been very active in assisting the local committee to get things in shape for the great convention, which is to give expression to the views of the friends of the white metal. Delegates are arriving by hundreds on every train to-day. From Denver 250 delegates arrived last night, and the representation from the eastern states, the middle and northwestern states, is a surprise as to numbers and influence. Gen. Warner, of the Bimetallic league, and Senator Stewart arrived from Washington last night. Many prominent labor organization leaders are in attendance. The convention people will open in the main hall of the first Methodist church at 10 o'clock Tuesday morning. On Tuesday and Wednesday nights a great rally on the Lake Front will be addressed by Gen. Warner, Senators Jones and Wolcott, Congressman Bryan, of Nebraska; Bland, of Missouri, and many other leading free silver men. Carl Brown, California delegate, will make an address on the Lake Front to-morrow afternoon. Brown is the organizer of the American Industrial league, the free silver society of the west.

Artificial Rain in Belgium.
BRUSSELS, July 31.—The Independence Belge says that in view of the disastrous effects of the recent drought the Belgian government is making preparations on a large scale for experiments in producing rainfall by artificial means.

Four Millions Below.
WALL STREET, July 31.—The bank statement shows the following changes: Reserve, decrease, \$334,135; loans, decrease, \$2,705,900; specie, decrease, \$1,221,400; legal tender, decrease, \$3,898,500; deposits, decrease, \$8,299,100; circulation, increase, \$110,900. The banks are now \$4,031,675 below the requirement of the 25 cent rule.

Colorado's Unemployed.
DENVER, July 31.—Judge Belford and State Senator Barera were at the governor's office Saturday, offering suggestions as to what should be done for the unemployed. Judge Belford thought the \$1,000,000 surplus in the county treasury ought to be expended for the employment of the idle men. Senator Barera declared the state was the proper authority to provide for the unemployed and said he was in favor of the legislature meeting to enact a bill setting apart \$1,000,000 for the construction of canals and reservoirs.

SENATORIAL CANVASS.
Another Attempt to Find Out the Silver Sentiment—Opinions Differ.

WASHINGTON, July 31.—The Washington Post publishes an estimate of the probable vote in the senate on the repeal of the Sherman silver purchase law. It gives 37 for nonconditional repeal, 14 who will vote for repeal but would like to mellow it, and 34 against it, or for free silver coinage.

The canvass made by the silver men differs materially from that of the Post, both in number and personnel. They give the figures as follows: For a gold standard and absolute repeal, 34; probably for, but as yet uncommitted, 6; total 40. Against repeal, unless with conditions, a free silver coinage, 43. Three senators from Washington, Montana and Wyoming are to be admitted, which will swell this vote to 46.

OFFICIAL GOSSIP.

A postoffice has been established at the town of Pecos, in San Miguel county, Transito Chavez, postmaster. Mail from Glorieta twice a week.

The following New Mexico postmasters have been appointed: C. B. Pierce, Antelope, Valencia county; P. Martinez, La Jara, Socorro county.

I. D. Lafferty, at the head of the pension examining board in New Mexico, is at Socorro this week looking into the claims of all pensioners.

Ex-Sheriff J. L. Lopez, of San Miguel county, is in the city; he is here to settle accounts as collector for 1891 and 1892 with the territorial auditor.

Tuesday, November 7, has been decided upon as the date for the irrigation convention at Deming, and the formal call will be issued within a few days by Gov. Thomson.

Sheriff Channey Flora, of Leavenworth, Kas., is in the city to-day and secured a requisition for one John Gross, wanted for murder. Gross is in custody at Albuquerque.

Mr. Chas. L. Butterton, of Dallas, arrived this morning and will be in charge of the office of Collector Shannon. Mr. Butterton's family will come on from Dallas shortly.

The tax levy for Grant for the present fiscal year as apportioned by the board of county commissioners is \$22.25 on the thousand. The total valuation of property in the county is \$4,038,702.74, after deducting \$112,200 for family exemption. The total amount to be derived from the taxes will likely be something over \$90,000. Scarcely enough to pay current expenses, it is said, a statement which, to say the least, is very queer.

The postoffice at Columbus, about twenty miles south of Deming on the border, will be discontinued after to-day, by order of the postal authorities. The office at Columbus has been the distributing point for the Mormon colonies and several towns in Old Mexico and the discontinuance of the office will prove a very great inconvenience.

Notice to the Public.

We the undersigned sell the only genuine W. J. Kemp's St. Louis Lager Beer in kegs or bottles. See that our name is on the labels. All other beer sold under a St. Louis label without a name are imitations. KIRCK BROS., Sole Dealers.

TERRITORIAL TIPS.

ALBUQUERQUE ATOMS.
The local militia companies are trying to unite and reorganize.

Citizens are stirred up over the charge that the practicing of the Silver Cornet band is a public nuisance.

Mr. and Mrs. Albert Grunfeld are expected home to-morrow from a several weeks' visit to the eastern watering places.

The New Mexico phonograph company have received 100 new cylinders such as supplying new airs. Two phonographs will be sent to Santa Fe this week and a like number to Las Vegas.

William Frazier places no credence in the rumor of the Maurice Gomez and wife. He knows the Gomez brothers, Maurice, Antonio and Maurice, well. They are Portuguese, not Italians, as heretofore stated. They are well liked by every one in the section of country where they have been engaged in the sheep industry for about fifteen years. Maurice married into the Baca family of Galisteo, —Democrat.

LAS VEGAS LOCALS.

The east and west side bands have concluded to consolidate.

For two days a Mexican has been loafing in that part of the city north of Washington avenue and between Sixth and Seventh streets. The children say he has a pistol, and he certainly acts as if he were after no good.

It is reported that in an altercation at Raton, Saturday morning, Frank Dolman, brother of Mrs. John Ransdel, of this city, shot and killed another brakeman named Johnson. Fuller particulars could not be learned.

The town is overrun with bums. Thirty were taken in last night in the south half of town. But what good is done in running them in and then letting them go? The town is utterly defenseless against these vermin, as all the police can do is to run them out of town, they running back faster than the police can run them out.

SOCORRO SIFTINGS.

John A. O'Neill has leased the Grand Central hotel and will take charge of it next Monday.

Prof. Francis Duff will be principal of the public schools here for the coming year.

Will Martin, the gentlemanly court interpreter, is building himself a fine home in the upper part of the city.

There is 2,700 feet of three and four inch water mains laid out in the city. It is intended for fire protection. The city gives them the water.

The crops in the Rio Grande valley in Socorro county are the best this year that have been grown for years past. Our people will not worry about hard times this winter, in a year of plenty.

Plenty of wheat, plenty of beans, plenty of corn, plenty of chili, plenty of grapes, plenty of wine, plenty of fruit, with beef and mutton galore. This will be the condition of the people of Socorro county this fall and winter.

GRANT COUNTY CRUMBS.

The grass is higher on the ranges surrounding Deming than for five years past and there is water in abundance.

Jo. E. Sheridan, of the Enterprise, sold the Sheridan block to Henry Rosenberg, a goods merchant. Consideration, \$25,000.

The bicycle riders of Deming are arranging for a series of races to take place in about two weeks. Medals will be given as prizes.

The Deming Coal company is developing its properties to the north of Rincon and expects to have sufficient coal to ship in paying quantities to this place during the winter.

Between 10 and 11 o'clock Friday night a heavy storm passed over Silver City from east to west. It was accompanied by heavy thunder, and exceedingly vivid lightning. It took no time hardly before there was a big flood flowing through the streets.

WORTH A GUINEA A BOX!
STILL ROLLING
St. Helena, England, is the seat of a great business.
BEECHAM'S PILLS
are made there. They are a specific for all Bilious Disorders arising from Weak Stomach, Impaired Digestion, Disordered Liver and all Female Complaints.
They are covered with a TASTELESS AND SOLUBLE COATING.
Of all druggists. Price 25 cents a box. New York Depot, 35 Canal St.

D. P. Carr, Silver City's assessor, has completed the tax books for this year's assessment and they are ready for the collector. From a list published in Friday's Enterprise out of 550 tax payers on the roll fifty pay seven-tenths of the total tax assessed.

William Cayer, a miner at Cook's, was seriously injured by an explosion a few days ago. While working in a tunnel, a shot exploded in an adjoining tunnel, breaking through the wall between the workings and badly cutting and bruising Cayer. Two ribs were also broken and the lung tissue lacerated. At last accounts he was expected to recover.

The public schools of Deming will open early in September. The new school board has organized by the election of Lou. H. Brown as president and N. A. Bolich as cashier. The teachers selected come highly recommended. Prof. Selby will be in charge. The high school will be established and the first graduating class will hold exercises at the close of the term next June.

EDDY ECHOES.
T. T. Dougal is putting forty acres near Otis, in can-agria for Mr. McMillan, of St. Louis.

The name of the Mexican whose dead body was found at Seven Rivers, was M. Rodriguez. About sixty knife thrusts were counted on his body. No inquest was held.

The Citizen reporter was shown an alfalfa plant only six months old, grown by A. B. Cady, of Eddy, that measured five feet from tip to tip. The stalk was two feet nine inches and the top root three feet two inches.

The Pecos river began rising last Wednesday as a result of the big mountain rains and stood about two feet higher than usual. On Friday the greatest flow of the season came down the river.

The water mains lack but a little over half a mile of reaching the new wells. It will not be long now before Eddy will have plenty of nice soft water.

The Pecos Irrigated Farms company will raise on their 700 acres planted in alfalfa, at least 2,000 tons of this clover the present season, besides all the fodder they will need to feed the stock on the place. They already have 250 tons in stack from the second cutting and the third cutting is commenced. The first averaged one ton to the acre and the succeeding cuttings will go one and a half tons.

Mr. Robert W. Denny
An Exempt Freeman of Jackson Engine Co., Long Island City, N. Y., says that at Christmas, 1890, he could only take a meal of dinner, as he was in a fearful condition from dyspepsia. The next summer he went to Europe for his health, but came home un cured. In the fall he decided upon a thorough trial of

Hood's Sarsaparilla
And by Christmas had a hearty appetite, healthy digestion, and was perfectly well. His cure was due wholly to Hood's Sarsaparilla.

Hood's PILLS cure liver ills, constipation, biliousness, jaundice, and sick headache. Try them.
